Robert A. Bothman Construction is a union company with over 45 years of expertise and more than 35 million square feet of synthetic surfaces installed. The company has a proven track record of delivering high-quality, safe, and sustainable solutions for Professional, Collegiate, K-12, and Municipal Clients. Bothman is here to assist decision-makers (Chief Business Officers, Superintendents, Athletic Directors, Facility Directors, City Planners, and others) in understanding the process and approach to building world-class sports facilities.

Bothman has the capability to self-perform most trade work, thus ensuring:

**Budget &
Cost Control**

**Quality
of Construction**

**Project
Schedule**

**Site
Safety**

Quality Control Measures

- **U.S. EPA Draft Method 1633**, finalized in early 2024, for PFAS analysis in soil and surfaces, ensuring safe and environmentally compliant fields.
- **G-MAX Testing**, per ASTM F355 Procedure A and F1936, measures and ensures impact quality of field and safety for athletes, minimizing injury exposure.
- Comprehensive **Soils Analysis** to ensure optimal foundation and drainage properties. Use of **Organic Infills**.
- Implementation of **Life-Cycle Planning** for long-term performance and sustainability.

35M

**SQFT in Total Synthetic
Surfacing**

27M

**SQFT in Athletic
Fields**

8M

**SQFT in Track
Surfacing**
